

## Insurance Valued Inventory

A completed insurance application must be received by Champion **seven days** prior to the commencement of packing to ensure coverage of your household goods. Should the completed form not be received by Champion prior to packing, I understand that scheduled packing dates may be canceled.

1. You are required by Underwriters to value each article for replacement cost at **destination**.
2. China and silverware—list brand, pattern and place setting.
3. Rugs and carpets—list type, style, and material.
4. Photographs, personal files, and papers, and personal video/compact disks--cannot be insured.
5. Computers software—only the original software can be insured.
6. Clothing—articles may be grouped. However, remember that the values of articles in a grouping will be averaged. Therefore, an article considerably higher or lower in value than the rest of the group should be listed separately.
7. Books—can be grouped separately such as hardback, paperback, medical, etc. (20 hardback@ \$15 each)
8. Wine, spirits—insured for breakage only.
9. Electrical items—larger electrical items should be listed with make, model, and manufacturer.
10. High value items—Underwriters may require you to substantiate the value of items by producing a receipt or an appraisal of the item.
11. Works of art, sculpture, painting—must list subject and artist.
12. Jewelry and furs—it is suggested that you carry these items with you. However, should you decide to ship them, each item must be listed individually and the total amount may not exceed U.S. \$25,000 unless prior approval is granted by Underwriters. Money and securities are absolutely excluded.
13. Please be advised that Underwriters are entitled to repair, replace or to pay cash not exceeding the insured value for any article lost or damaged.

I have read and understand the terms and conditions of the insurance coverage and have valued my shipment to the best of my ability.
